

Metropolitan Advanced Technical High School

Building Additions

This vocational training facility includes classroom space for adult vocational programs offered by the Kansas City, Missouri School District. Wellner Architects provided the design for two additions to the existing facility. One addition was for a 600 seat, 9,000 square foot auditorium and the other addition was for a 3,600 square foot cafeteria.

Client	Kansas City Missouri School District
Construction Cost	\$1,200,000
